

How To Run a Kahoot

What you'll need:

- A question screen (a phone, tablet or projector)
- Participants with smartphones & internet
- Don't need sound but it's there if you want it

Game Play

1. Follow the link to the Kahoot (for example: tinyurl.com/beliefingodkahoot)
2. Hit "play" and then "Start now" (both purple buttons)
 - a. You'll see the option of "Classic" or "Team mode" – that's up to you!
3. Students go to "kahoot.it" in their web browser and put in the 7 digit PIN on your screen.
 - a. Note: The screen gives you 15 seconds for everyone to sign in – but the game doesn't lock after that initial screen so don't worry if one of your participants is a little late!
4. The game will run automatically, but you can adjust the settings before starting if you'd like to take more control.
5. The options will show up on screen and the students will vote. Enjoy!
